HELLENIC AGRICULTURAL ORGANIZATION - DEMETER

Fisheries Research Institute (FRI)

## **Fisheries Research Institute**

The Fisheries Research Institute will host the Annual Regional Co-ordination Group of the Mediterranean & the Black Sea 2018, this year in Greece, Kavala and N. Peramos, on the 17<sup>th</sup>-21<sup>st</sup> of September. The meeting will take place in FRI's conference room which has a capacity of 35-50 people and is fully equipped with audio-visual presentation media. Delegates from Member States will gather and discuss the progress and procedures necessary for the continuation of the fisheries data collection national projects. At the same time, two separate sub-groups will convene at the venue. Firstly, the 1st Training Workshop on sampling optimization – developed by MARE/2016/22 project STREAM, along with a second subgroup comprising of EU eel specialists, who will discuss all progress achieved since last year's meeting, On the status of European, eel populations.
